Only the extra territorial use of the state forces without their consent was denied the federal government by the constitution, General O'Ryan asserted and in this cction. Compensation of the guards-nen by the federal government for ac-ual services rendered was urged, al-though General Foster objected to describe the militia. General Foster said:

Service Returned Equivalent to Pay. "The National Guard does not ask a dollar from the public treasury for which it cannot give a full measure of service in return. In the first place it should be considered that under any system of volunteer military service the government must pay for such sersenator's militia pay bill. After declaring that the guardsmen always had stood in the way of the organization of a purely federal volunteer force on sound lines, Mr. Garrison said:

Parting of the Ways.

"Having arrived at the consideration of a measure involving pay of the national guard, we have come to the lines of the ways. The passes of the same that favored militing company. partment had favored militia compen-sation legislation all along although

"My answer was Yes.' I was then asked whether if they took that attitude I would exercise my influence in favor of the pay bill and I said said 'Yes.' But I added that I had never elicited from President Wilson any expression of final judgment in this particular on the pay bill and that I could ticular on the pay bill and that I could not tell, therefore, whether or not he would permit me, as secretary of war, to favor that bill, but that my own personal position was just as I have expressed it."

COLLISION AT SEA Between Two Steamers at a Point Near Cape Race, N. F.

Boston, Feb. 1.-Wireless messages indicating a collision at sea between two steamers at a point near Cape Race, N. F., were picked up by several stations on the New England coast late tonight. The identity of the vessels was not disclosed. One was said to be sinking. The other ship, stating she was badly smashed, sent word she would stand by.

The vessel which reported itself sinking signed the message "J. T. D." According to wireless authorities, this signature should belong to a Japanese vessel, other signs of the same group being identified with ships of the Ceaka Mercantile company. The messages

"W. I. A."

According to radio registers, the initials "W. I. A." form the wireless signature of the American steamer Silver Shell, of 3,422 tons, in command of Captain Gibson. The Silver Shell was last reported as arriving in New York Jan. 19 from Bordeaux.

The position of the steamers was given as latitude 43,46, longiture 46,57, a point in the vicinity of Cape Race, N. F. It was to the wireless station at that place that the messages from the "W. I. A." were directed.

The messages, which were very fragmentary, indicated that the "W. I. A." was sending lifeboats to the other ship.

ship.
Soon after there came to the listening stations on this coast a low pow-ered succession of signals which spelled out: "I am sinking; come and save me." This call was signed "J. T.

what later "W. I. A." sent a message ashore which said the second vessel was out of sight. Whether this was
